The regular issue of the Annuaire was interrupted during the European war (1914-18); a brief statement for this period, corresponding to the "26-30. année", was published under title: "Résumé de la situation; état des publications et situation financière, 1915-1917" (13. 25 p.) supplemented by a similar statement for 1918-19 which is included in the Annuaire, 46. année, 1918 p. 17-18.

Like the "annuaire" and "Livre public par la société" are included regularly in the annual issues; additional lists of members arranged by order of seniority are included in v. 23-25, 1902-04.

"Table alphabétique" for 1892-1893 is included in v. 12 p. 486-491; for 1899-1901, in v. 22 p. 483-48.

Under the title "Bulletin" the society has issued both a series of fascicles containing its proceedings and miscellaneous contributions, and also a series comprising independent monographs; these fascicles are consecutively numbered. The first four volumes (called "extra" since) was never issued until 1911, when another volume (called "bulletin" since) was published, containing proceedings and short contributions; this volume has no general series i-p, but there is a combined table of contents in the last number covering the whole year. During the years intervening between 1899 and 1911 the society issued a series of monographs which have cover-title "Bulletin" but no series i-p, except one, which has series title "Bulletin, v. 5, 1901," and half-title "Lettres diverses à Faci".

In this entry, only the volumes which contain proceedings are entered; the monographs are entered under their own titles, with added entry under "Société des sciences historiques et naturelles de la Corse, Bastia. Bulletins."

5 v. Illus., plates, maps, plans, diagrs. 541-554"

Part 1 has title: Ionian antiquities, published with permission of the
Society of dilettanti by R. Chandler, S. Bevet, and W. Pars.

Part 1 was published 1769; pt. 2, 1797; pt. 3, 1840; pt. 4, 1861; pt. 5,
1915. In the introduction to pt. 5, the following statement is made, "The
plates now published in this volume for the first time were engraved be-
tween 1820 and 1840 from the drawings made by the members of the so-
called Ionian mission sent out by the Society of dilettanti in 1811. These
engravings were to have been issued in a companion volume to part III ...
It was delayed, however, by the death in 1880 of William Wilkins, a. a.,

who had been the architectural expert of the society from the time of the
mission, and was acting as editor of the work ... The engraved plates
were thus forgotten until a set of proofs of them were given by the society
in 1912 to the Royal Institute of British architects, together with many
of the original drawings ... They comprise the important work, which
was carried on for so long a time by the Society of dilettanti ... The
drawings given in 1912 ... were the whole of those remaining in the pos-
session of the society so far as architecture is concerned. They com-
prise the originals of most of the plates now published, together with
many others from Mrs. and Misses which have not been engraved."

Some considerations on the consequences of the French settling colonies on the Mississippi ... 1790. (1898). (Card 9)

The authority of this pamphlet has been attributed by Justin Win-ger to his Narrative and critical history (vol. v, p. 76, 80) to Richard B. Woodward, and in his later book, The Mississippi basin (p. 141 note) to Dr. James Smith. Internal evidence, however, would identify it as the author of the Introduction, p. 1.
